Promptness and Accuracy.

On the Jasper Highway

A strong reminder of the
"good old days" when there
wasn't any road to Edmon-
ton, was given travelers on
the Jasper Highway on Mon-
day last.

According to the testimony
of the driver of a bus, the
Highway was "simply one
dark drift after another."

The wise drivers of light
cars on the Highway made an
effort to follow in the wake of
a truck, which usually opened
a road thru the drifts; altho
even the truck drivers had
their troubles on coming to
the high drifts.

The most notable drift was
the half-mile stretch east of
the Beuerlein corner. On this
stretch the driver of the Ey-
ansburg bus had to procure a
team of horses from the oc-
cupant of the Capt. Gibson
farmhouse. This was the sec-
ond time, on this trip from
the City, that Jerry had to
seek the assistance of horse
teams.

One Stony Plain merchant
left here in his auto at 2 p.m.
Monday for a trip to Edmon-
ton. At 5 p.m. he had got as
far as Winterburn store, from
where he phoned to a friend
in the City, asking him to
come out with his car, get
him and bring him in to the
City, as he was tired of driv-
ing thru the drifts. As the
Stony merchant didn't relish
the prospect of having to buck
the snowdrifts on the return
trip at night, he decided to
stay in the City and return
home the next day.

And all this within twenty
miles of the Capital of Alber-
ta, on the famous Jasper
Highway.

Owners of buses and trucks
express the hope that, when
the new extra high fee for
licenses is enforced, the Gov-
ernment will be willing to
pay the expense when horses
are required to pull trucks
out of Jasper Highway snow-
drifts.

Wheat Pool Settlement.

A measure submitted to the
Alberta Legislature last week
reads: "A bill to validate the
settlement of the liability of
the province of Alberta under
the guarantee of the repay-
ment of advances made by
certain banks to Co operative
Wheat Producers, and to val-
idate the securities issued by
the province in connection
therewith."

The settlement of Alberta
government's liability on the
Wheat Pool's guarantees in-
volving this province to the
extent of \$5,536,707.

Mixed Farming To Solve Many Difficulties Of Western Farmers Declares Hon. Robert Weir

In balanced farming lies the solution to the difficulties confronting western Canada farmers, declared Hon. Robert Weir, Federal Minister of Agriculture, in an address before the Canadian Club at Toronto.

Outlining the progress of western farming from its inception until the present, the Minister made a strong appeal for the support of the east-spoke optimistically of the manner in which the western farmers had faced disaster and expressed the belief that, through mixed farming, the west would soon return to its customary state of prosperity, thus benefitting the remainder of Canada.

As far as possible, he said, the government wanted to make each farm a self-sustaining one. He suggested the planting of ten acres of land with a hardy, drought-resistant grain. This ten acres, if properly sheltered, would hold moisture enough to raise food for enough stock to maintain the farmer and his family during periods of distress.

He did not believe that quite so much grain would be grown in the western provinces in the future. The northern section of those provinces were better adapted to the raising of livestock. There was less overhead expense in raising cattle in the west than there was in the east. Poultry too he maintained, could be more profitably raised in the west than the east.

Not all sections of the western provinces, he pointed out, were adapted to the raising of livestock, but in those sections which were adapted, he felt this action should be taken. With the aid of a map Mr. Weir outlined to his audience the extent of the drought areas. In Saskatchewan, he declared, 75 municipalities had had crop failures for three years in succession. The area was one of approximately 25,000 square miles of the richest wheat growing country in the world. During the drought, not one green thing was grown for man or beast. As a result the government was providing relief for 246,000 people.

A provincial relief commission was operating without remuneration. And this commission, he went on, was operating at a cost of 3½ cents per dollar of administration. It had been estimated, he said, that it cost 50 cents to administer every dollar for relief.

He paid a strong tribute to the westerners, whom, he said had faced the tragic drought situation with courage and hardihood. They had refused to have charity forced upon them. They could not borrow money. But they gave their notes for repayment of all assistance advanced to them. "Their determination to take no charity was one of the brightest things in the disaster," he said.

"I have absolute faith in the west. No one knowing the westerner as I do could have any doubt of that. They are not of the ilk to quit. They do not ask for something for nothing. They will win through in spite of all obstacles. I know you will do all in your power to hasten the day when again the billions of wealth of the west will flow through the channels of trade into the coffers of the east. I think the path is clear."

Mr. Weir was introduced by Rt. Hon. Arthur Meighen, former Prime Minister, who also paid tribute to the relief commission, which, he said, was working admirably.

"What does 'misuse of alcohol' mean?"
"Using it for purposes other than drinking."—Kaukatoren, Oslo.

W. N. U.—1922

Tomatoes From Bahamas

Shipments To Be Made During Off Season In Canada

Word comes from Nassau, in the Bahamas, that Canada's supply of tomatoes for the next three months will come from these islands, that an initial shipment of 3,500 crates has been made to this country, and that it is the intention to ship not less than 5,000 crates a week. This is a new development which follows a trade entente between Canada and the West Indies, and means that during the off-season, when tomatoes are not produced in this country except in very limited quantities, instead of getting them from the United States, they will come from the Bahamas, our sister member of the British Empire. It is worthy of mention in this connection that in the Bahamas they are not discounting Canadian currency, but are taking it at its par or face value, a matter which should not be overlooked.

It has been aptly pointed out that these products are grown on British soil, by British subjects, and are handled by Canadian ships through Canadian seaports and brought to their destination by Canadian railways, an excellent all round argument in favor of a ready market in this country.

Sound Plan To Follow

More People Should Adopt Homely Philosophy Says Negro

The story is told of a colored man who entered a store in the small town in which he lived. He was known to the merchant as an honest and hard-working man. His quest on this occasion was the purchase of a blanket, and he had a fairly well fixed idea of how much he could afford to pay.

The merchant showed him something better than he was looking for and told of its superior quality all of which the negro customer admitted, but said that he could not afford the price, adding by way of explanation: "I nevah hangs my hat higher up dan what I kin reach." And there is quite a good deal of homely philosophy in that saying. The colored man knew what he had in cash, and he had no desire to owe the dealer anything as a second or third payment.

The trouble with a good many people, companies and nations, is that they have been hanging their hats so high they'd need a step ladder to reach them, and some person seems to have taken the ladder away.

When the Power Goes Off

Only Time We Realize How We Depend On Electricity

We never realize to what extent we are living in an electrical age until the power goes off, and the folk have turned the switches on the electric range, but the kettle has not boiled, neither has there been heat in the oven. We have turned more buttons and electric bulbs have failed to give forth the radiance. Those who have depended on motors to produce fire of some sort or another in the furnace have had to make the best of it and be thankful that the weather was not severe.

The vacuum cleaner and the radio have had to take a holiday; the toaster on the corner of the breakfast table has been good for nothing at all; in many homes the sewing machine has not run, and the curling tongs have failed to take on their accustomed heat—all because the power was off.

We can imagine of nothing more helpless than a city newspaper office when the power ceases. The telephone machine comes to a halt; it will tell us nothing at all of what is going on in the wide world outside with which it is so adequately connected with its far-flung connections. The linotype machines cease; the metal in them, instead of remaining liquid for casting lines, becomes as hard as stubborn metal can be; there can be no plates (or pages) cast for the big press, and the press itself will not budge nor spin a wheel. Wise men and skilled there are who know all about these machines. They can speed them up when it comes close to press time; they can doctor them when they get out of condition, but they can do nothing at all when the power goes off.

Learned men can not tell us very much about electricity. To be sure they can use it and harness it and all that. But there is more adequate defining in those two words "Power's off" than in anything we ever read or heard about electricity. Then it is we begin to realize how utterly dependent we have become on this strange force which we get from the wires which men have strung for us all over the country.

A Worth While Career

So many married women are restless for a career. If running a home and raising a family isn't a career, then the professions as well as business, politics and the arts are just nothing at all by comparison. A wife and mother is about the most important individual on this earth, if she has the wisdom to hold her head high enough.

Antique statue of Cupid, dug up in Italy, has a hand, both legs, a nose and an ear missing. Wouldn't that be an ideal ornament for the city park of Reno?

American Newspaper Tells Why The United States Must Help To Settle The Reparations Question

Why must the United States help to settle the reparations question?

The answer is set forth in an article appearing in the new Republic, published in New York, and is as follows:

Because, unless reparations are cancelled, Germany cannot recover. If Germany does not recover, American investments abroad will be further imperilled, and Europe will not be able to resume her pre-depression purchases of our products. But reparations cannot be cancelled by Britain unless her debt to us is correspondingly reduced; for that would complete her ruin. And France will not cancel reparations, even the unconditional part, unless her corresponding payments to Britain and the United States are simultaneously remitted. Use by France and Britain of the moratorium privileges of their debt agreements with us would merely postpone the reckoning and leave confidence unsettled.

Why is the United States responsible in part for lack of monetary stability abroad?

The outflow of gold from Great Britain and Germany, which undermined the gold standard of the one and the credit of the other, was caused in part by the obligation to pay war debts and reparations, irrespective of other elements of the international balance of payments. It was caused in part by the inability to create a sufficiently large export surplus of goods, an inability due largely to tariff barriers, especially that raised about the United States, and increased by the Smoot-Hawley bill after the depression was under way.

Why cannot tariff wars be abated without reconsideration of the United States tariff?

Because, under present conditions, the United States is the ultimate creditor nation, which must be willing to accept a surplus of imports over exports if the international debts, public and private, are ever to be paid.

Why is the United States necessarily involved in armament discussion?

Because we now spend on armaments more than any other nation, and far more than we did before the War. Because we have a navy second to none. Because Great Britain and France will not reduce their navies unless we reduce ours, and because land armaments will not be reduced unless sea armaments are reduced. Because reduction of armaments is, in general, tied up with international political stability, which is, in turn, largely dependent on economic appeasement.

Why is it impossible to consider

reparations alone, or war debts alone, or currency problems alone, or tariffs alone? Why must all these things be settled as part of a coherent world policy?

Because, as the Wiggins committee said last August, and as the Basle committee report emphasized, "In recent years the world has been endeavouring to pursue contradictory policies, in permitting the development of an international financial system which involves the annual payment of large sums from debtor to creditor countries, while at the same time putting obstacles in the way of the free movement of goods." Because, as the Basle report points out, "If barriers are imposed to the free movement of goods, the world cannot readily adapt itself quickly to important changes in the course of credit and trade." This arises from the fact that other elements in the international balance of payments, such as tourists' expenditures and immigrant remittances, are not very flexible. And so, "attempts to maintain the international balance of payments by means of larger and abnormal movements of gold have weakened the monetary foundations of many countries."

A New Venture

Salmon Packers Remove Skins Of Sockeyes Before Canning

Trying a new venture last year, with apparently satisfactory results, one of the salmon canneries on the Fraser River in British Columbia skinned part of the sockeye catch before putting the fish through the canning process and reported obtaining a price premium for the product.

Salmon are ordinarily canned without removal of the skins and the advantage obtained by the cannery which has been experimenting with the use of skinned fish is said to lie in an added attractiveness in the appearance of the finished product.

The skinning process, as outlined to officers of the Dominion Department of Fisheries by the manager of the cannery, is not difficult or complicated, and is estimated to cost about three cents per fish. It is carried out by hand workers with the use of a knife, and a wooden clamp tool, which consists of two pieces about three-quarters of an inch square fastened together at one end by a light metal bolt and rounded at the other end to fit the hand. After a cut has been made in the skin of the fish, near the tail, the clamp is attached and rolled toward the head. As it is moved along, it peels off a strip of the skin in each operation. After the fish has been cut into pieces of suitable size and packed in cans, the containers are sealed and the cooking process is carried out in the usual way.

Simply a point of incidental interest, it may be noted that sockeye skins weigh several ounces each. For example, ten skins weighed this summer averaged a little more than a third of a pound each.

Would Be Prepared

An Irishman, signing articles on board a ship, began to write his name with his right hand, and then changed the pen to his left hand and so finished. "So you can write with either hand, Pat?" asked the officer. "Yiss, sorr," replied Pat. "Whin I was a boy me father always said to me, 'Pat, learn to cut yer finger nails with yer left hand, for some day ye might lose yer right hand.'"

"He treated me like an old fool." "What cheek! And you are hardly forty."—Pages Gales, Yverdon.

PARLIAMENT OPENS WITH SPLENDOR AND TRADITIONAL CEREMONIES

The main picture shows the scene in the Senate Chamber of the Canadian House of Parliament when His Excellency the Governor-General opened the second session of the Canadian Parliament. Her Excellency the Countess of Beaulieu is shown seated on His Excellency's left, while the Senators and beautifully gowned ladies occupy the seats on both sides of the Upper Chamber. When the photograph was taken the Right Honourable R. B. Bennett, Prime Minister of the Dominion, was standing on the right of the Governor-General, making a short speech. Inset shows the Earl of Beaulieu taking the salute from the Guard of Honor on his arrival at the Parliament Buildings to perform the opening ceremonies.

CHILDRENS COLDS

WORLD HAPPENINGS BRIEFLY TOLD

The population of Indian reserves in Manitoba has increased from 30,370 to 32,524. Nelson is the largest reserve.

Highway construction will be resumed in British Columbia, assisting 7,000 in relief camps and 10,000 others.

The government of Alberta has no intention of shortening the school year. Hon. Ferrell Baker, Minister of Education, told Alberta school trustees.

Up to December 31, a total of 309 permits were issued for transportation of liquor into the Northwest Territories, totalling 540,000 gallons of spirits and 26 barrels of beer.

The defence ministry issued a formal denial of "charges made in Paris that Germany is building up in secret a war machine stronger than that of 1914."

Mahatma Gandhi's spinning wheel, clock, capbox, typewriter, two iron safes and \$10 in cash have been seized by the government at Ashram for non-payment of taxes.

The Moslem population of India is loyal to the British Empire, Abdullah Yusuf-Ali, of Hyderabad, said on arrival at Winnipeg for a series of lectures.

Lieut.-Col. Thomas J. Murphy, K.C., 75, died unexpectedly at his home in London, Ont. He was a former member of the Canadian Biley team.

Damage to Dartmouth prison during the recent revolt was at \$15,000 and the official inquiry has shown the prison officials as a body, behaved well.

Prohibition in Finland will automatically come to an end on April 5 under the terms of the new alcohol law which was signed by the president.

A United States senate bill to release government wheat for relief purposes was rejected by the House of Representatives Agriculture Committee.

An amendment to the motion in reply to the Alberta speech from the throne was defeated by 37 to 19. The amendment urged a halt to waste and asked a probe of the taxation question.

Shipments Completed
Shipments of buffalo meat and hides from Wainwright have been completed for this season, according to N. E. Walton, general superintendent of transportation for the Canadian National Railways. Approximately 1,200 animals were slaughtered.

A fossil skull of a primitive dog has been found at Crocker Springs, California, and is pronounced a species of dog heretofore unknown to science.

Will Interest Collectors

Limited Quantity of Surcharged Air Mail Stamps Overprinted
A notice of interest to stamp collectors and collectors of "first flight covers" is an announcement made by postal officials that, in order to meet existing demand for a six-cent air mail stamp arrangements have been made to overprint a limited quantity of the first five-cent air mail stamp issue with a surcharge, raising the value to six cents.

It is expected there will be a heavy demand for the stamps, postal authorities say, and advise those interested to send requests for the surcharged air mail stamps to the superintendent, financial branch for postage stamp division, post office department, Ottawa, together with covering remittance at the rate of six cents for each stamp.

To meet the wishes of "first day cover" collectors, arrangements have been made to furnish advance supplies of these surcharged stamps to postmasters throughout the Dominion.

THE SHOULDER CAPES—SUCH A SMART VOGUE FOR NOW AND SPRING

And this distinctive model includes all the tailored chic possible for street wear for early spring.

It is a smart patterned printed crepe silk in a very favoured scheme in navy blue and white. Plain white washing crepe silk made the darling tiny vest. It can be tucked in place so as to be readily removed for laundering.

Besides printed crepe, are plain crepe silks are exceedingly modish. Sheer woolsens are also suitable. Style No. 971 is designed for sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. Size 16 requires 4 1/2 yards of 39-inch material.

Spring is the most important, the most colorful season in fashions. All the more reason why you should have an authentic guide, such as our New Fashion Magazine, to show you the way in design, colors, etc. Of course, there are styles for afternoon, for stunts, for home wear, lingerie, children, etc.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Mrs. Fitzpatrick Tells How Dr. Williams' Pink Pills Made Her Well.

Can Now Run Upstairs.

"I became run-down and unable to do my work for a family of seven," writes Mrs. W. P. Fitzpatrick, Marquis, Sask. "I was told I had anaemia, and I took treatment, but with very little improvement. Finally my sister, who had had the same disease, advised me to try Dr. Williams' Pink Pills, as they had done her so much good. I have taken seven boxes. Today I'm well; able to do my own work; no more tired feeling or weak spots. I can run upstairs without puffing. I sleep and eat well. My friends are astonished at my changed appearance and never fail to ask what I've taken. My reply is: 'Dr. Williams' Pink Pills.'"
Dr. Williams' Pink Pills actually create a abundance of new red blood, which is the reason why they have given new vitality and strength to the blood of such nervously exhausted and overworked women. Equally helpful for growing girls. Try them. At your druggist's or new glass container. 50c a package. 27c

Money and Distribution

Saskatchewan Editor Publishes Interesting Booklet On Economics

C. C. Stuart, editor of the Dundurn Enterprise, has recently published an interesting booklet of fifty pages, in which he sets forth a thoughtful and provocative discussion of the present economic conditions under the title "Money and Distribution."

Nationalization of the banking system and abolition of the gold standard are advanced by the writer as possible methods of restoring credit, and stabilizing prices. Gold, he declares, is not a reasonable basis for currency, since it is not a useful commodity, and there is no real demand for it. Money is valued only for the goods which it may purchase, and therefore it should be issued on a basis of the national wealth.

Mr. Stuart advocates a national clearing house, in which records are kept of the wealth of the nation in terms of the goods it produces, and in which there are also records of the credit due each individual. On this basis, tokens could be issued, which would be used by the people in Canada.

Gold or silver is not necessary in international trade, he continues, since "if international trading is carried on, the commodity prices must rise and fall together in each country." He goes on to say in this connection that the relation between wheat and the dollar will vary in like proportion as between gold and the dollar.

The relation of such a standard of currency to inflation, holding of property, and other phases of economic life are discussed in a clear and logical manner, and the book is written in a direct and interesting style. Copies may be secured from Mr. Stuart by forwarding fifty cents to his office at Dundurn.

Study Tuberculosis At University

Dr. Lamb Directing Five-Year Campaign At McGill

Direction of a five-year campaign against tuberculosis among Canadian university students has been entrusted to Dr. A. S. Lamb, director of the Department of Education at McGill University, who has returned from the twelfth annual convention of the American Student Health Association, held in New York City.

Alarm at the prevalence and spread of the "white plague" among university students was revealed in a paper read by Dr. J. A. Myers of the University of Minnesota. The convention decided unanimously to embark on a five-year period of study, during which time a relentless war is to be waged against tuberculosis. Figures and statistics also will be obtained.

Comparatively little information is available on the extent of the ravages of this disease among university students, it was stated, and Dr. Lamb was assigned to direct the study throughout Canada.

Speaking on the importance of the campaign, Dr. Lamb called the menace of tuberculosis to university students a "very serious one." Due possibly, as some specialists believe to the strain of studies, tuberculosis is inclined to develop much more rapidly in students than might otherwise be the case, he said.

Many miles of railways in Britain are to be electrified this winter.

SUNDAY SCHOOL LESSON

FEBRUARY 21

JESUS THE GOOD SHEPHERD

Golden Text: "The Lord is my shepherd; I shall not want."—Psalm 23.

Lesson: John 10:1-42.

Devotional Reading: Psalm 23.

Explanations and Comments

The True Shepherd and the False Shepherds, verses 1-5.—Jesus is still speaking to the man to whom He gave sight, and to the Pharisees who had excommunicated the man and had condemned Jesus as a sinner for doing this deed on the Sabbath, our lesson last week.

"Verily, verily," Jesus began, thus drawing attention to the importance of the discourse that was to follow. Then he pictured an Eastern shepherd—a large, open enclosure with only one entrance, where the flocks of several shepherds were kept during the night—into which a thief seeks entrance by climbing over the wall that encloses it, but the shepherd enters by the right way, through an opening in the wall that he has made for him. The sheep know the shepherd's voice and come at his call. He leads them out, going before them and they follow, but from a stranger they will flee, for they do not know his voice. A flock of sheep is not driven in the East, as in our country.

Jesus' method is not that of compulsion, that attraction, which does not drive, he draws."—Francis Greenwood Peabody.

Then Jesus said, verses 6-10.—The Pharisees who claim to be the spiritual guides of the people, could see that Jesus was describing them under the picture of thieves and robbers, and the man formerly blind could not grasp the comforting thought that he was independent of the Pharisees because they were false shepherds who did not themselves know the way into the fold, into the Kingdom of God. The Pharisees thought that by excommunicating the man they had closed the door into heaven for him. Jesus therefore explained the picture he had drawn. "I am the Door of the sheep." He announced, "the Door through whom the sheep may enter the fold."

"One only Door leads up to God;

"This Christ His Son;

"Faith is the key that swings it broad;

"And every one

"Who takes this key may upward

"plod."—Donald A. Fraser.

Jesus As the Good Shepherd, verses 11-18.—With the statement of the purpose of His coming, Jesus set forth the figure of Himself as the Good Shepherd. Good here does not mean kind, but genuine, true, as is shown by the contrast with the thief and the hireling, verse 12. The good shepherd lays down his life for the sheep, while the hireling flees when wolves come, leaving the sheep to their fate. "I am the Good Shepherd; and I know mine own, and mine own know Me, even as the Father knoweth Me, and I know the Father"; in these beautiful words Jesus declares the depth of the love existing between Himself and His followers.

Using Convicts To Settle French Guiana

France Is Encouraging Ex-Prisoners To Open Up New Colony

Administrative reforms and a new spirit of colonization are rapidly changing the atmosphere of Devil's Island, the world's most famous prison colony.

Officials of the Colonial Office at Paris created the new Inini territory in French Guiana. Hard-then convicts who have served out their servitude under a tropic sun are looking seaward to a new life. In Doreys said to be rich in mineral and agricultural wealth.

No new colonists are to be sent there but ex-prisoners are being encouraged to settle. Formerly only those for a liberated man to do was to try to find work in St. Louis, Macouria or some one of the other coast towns.

About thirty years ago an attempt was made to transport Indo-Chinese convicts to the district, but it was a failure. Instead of clearing and farming the rich jungle land they became town merchants and servants for the households of the French administrative officers.

Arabs, Negroes and some native Indians make up the greater part of the free population. These men have refused to open up the country. Some Indo-Chinese fishermen, the last of a band of pirates sent here years ago, carry their nets in the coastal waters.

Almost all sentences to the prisons carry with them exile for a number of years after the completion of the term. Thus men who have done twenty years penal servitude must remain another ten or fifteen years. These men France expects to use as colonists.

A scientist says he can photograph the human mind in the act of thinking. But he's got to catch it doing it.

HUNTER-MARTIN & CO., REGINA, SASK.

SOCIAL RESEARCH PLAN ADVOCATED BY WESTERNER

Ottawa, Ont.—Creation of a scientific laboratory where the economic system might be dissected in an effort to remove the malignant growth, depression, was advocated in the House of Commons by Alfred Speakman, U.F.A., Red Deer. He would establish a "national council of social and economic research," patterned after the existing council on industrial and scientific problems.

The government, said Hon. H. H. Stevens, was willing to give serious study to the suggestion of an economic council. It was prepared even to pass the Speakman resolution if it were made contingent on the ratification of the government.

The machinery already existed for a scientific study of social and economic problems, said Rt. Hon. Mackenzie King, Liberal Leader. The National Council of Scientific Research might be enlarged and such questions as unemployment, unemployment insurance and maldistribution of commodities and wealth, referred to it for consideration.

Organized science had solved such industrial problems as production, said Mr. Speakman. The Dominion, in furthering that work, had created the National Council of Scientific Research. He asked why Canada should not establish a similar council to grapple with social and economic problems. "A ready field existed with such unsolved problems as unemployment, general distribution and low commodity values. Systematized research might find a key to the riddle of depression."

The resolution, explained Mr. Speakman, was identical with the one moved by him last year. The value of work performed by the National Council of Scientific Research was well known. Another body should be created which would be supported by the state and which would deal with the problems indicated.

It was a curious, significant and yet sinister fact, said Mr. Speakman, that people who had held property worth thousands of dollars are today receiving relief. The world today demanded leadership back to normal conditions or to what some might call the return to better society. The two steps which had been taken so far in the present depression were (1) relief, which was necessary and essential, but would increase the burden. (2) The 10 per cent cut, which reduced the purchasing power of civil servants. The conditions under which the people of the world were suffering were the consequence of human error and rectification must be susceptible of human control.

W. T. Lucas, U.F.A., Camrose, declared that before any real progress or prosperity could be achieved many of the old ideas would have to be scrapped. The big problem today was the proper distribution of wealth among the people who created it.

East Provides Market For Western Fish

Two Special Trains Carried Consignment From Prairies

Winnipeg, Man.—Shipments of fresh and frozen fish from the west to distributing centres in eastern Canada and the United States reached a peak last week when two special fish trains were operated by the Canadian National Railways. A train of fifteen cars of frozen fish left Prince Rupert with its cargo consigned mainly to Toronto, Montreal, Windsor, Chicago and New York. The movement of fresh fish from the prairies was featured by a consignment of eleven heated cars which were rushed east on an extra section of the Continental Limited.

No Information Available

Ottawa, Ont.—The government has no information as to whether the report of the Royal Commission on Transportation will be made, nor whether further sittings of the Commission will be held, said Premier Bennett in the House of Commons. He was answering a question by C. R. McIntosh (Lib., North Battleford).

W. N. U. 1929

Favorable Wheat Situation

Increased Demand For Export Grain Has Made Market Firmer

Ottawa, Ont.—Increased export demand for Canadian wheat during the next two months, with resultant higher prices, appears inevitable.

In a statement issued recently by Hon. H. H. Stevens, Minister of Trade and Commerce, favorable factors in the wheat situation are summarized, and it is declared a large continuing demand is even now making itself felt.

Broomhall, noted Liverpool authority, who has taken the pessimistic view until recently, now has indicated a growing appreciation of the constructive factors in the wheat situation.

He says: "Larger buying of foreign wheat by Italy and France, as previously predicted, has already a firming influence upon world's markets and we are of the opinion that continued large buying will prevail during the coming six months, including a better demand from Germany which would be essential to provide the necessary food for the people. The United Kingdom may buy slightly less actively, but the consumption of imported wheat is certainly abnormally large just now. The strength in America and the lack of Russian offerings must in time make for a much better selling market for other exporters."

Developments point to a shortage of good milling wheat in Europe at the present time, and that there are no large supplies of wheat in normally exporting European countries. Forecast of government legislation to bolster values on the Buenos Aires futures market, which may encourage the holding of wheat in the Argentine, appears as a favorable factor here. If the Argentine action is too drastic, it would mean the switching of trade to Winnipeg where a free hedging market exists.

Too Much Legislation

Suggests Three-Man Dictatorship To Govern the Prairies

Montreal, Que.—"What the west needs most of all at present is a complete holiday from legislation for the next five years. It should have a three-man dictatorship to run the prairies," said Mayor Ralph Webb, of Winnipeg, who was in Montreal recently on his way to Lake Placid.

Mayor Webb was asked what the sentiment on the prairies was towards the proposal of Premier John Bracken, of Manitoba, for a united government of Alberta, Saskatchewan and Manitoba.

"If you want to know my opinion," said Mayor Webb, "I would tell Premier Bracken to try to solve the problems of Manitoba before he tries to take on the problems of the other provinces. He's got plenty of work to do there."

Vessels Protected

Canadian Ships Are Safeguarded At Port Of Shanghai

Montreal, Que.—Despite repeated bombardment by air and by Japanese naval craft movements of foreign shipping at Shanghai have not been interfered with according to a cable received here by George Stephen, vice-president in charge of traffic, Canadian Pacific Railway, from Alan Cameron, the company's Oriental manager at Hong Kong.

When bombardment occurs at Wosung, a British naval vessel stationed outside that port communicates with British vessels and consular authorities notify steamships.

Air Mail Cost

Ottawa, Ont.—At an estimated total cost to the government of \$472,539 there were from July 1, 1931, to January 31, 1932, 224,904 pounds of mail carried in the air mail services, over a total mileage estimated at 644,786 miles. These figures were shown to the House of Commons by Hon. Arthur Sauve, postmaster-general.

Want Bilingual Coins

Ottawa, Ont.—The House of Commons will be asked to approve a resolution advocating that Canadian currency should be in both English and French. O. L. Boulanger (Lib., Bellechasse), has placed this request on the order paper of the House.

CANADIAN SELECTED

W. T. Macoun, Dominion Horticulturist, who has just been elected Vice-President of the American Pomological Society.

Cold Wave In Europe

Eleven Men and Women Frozen To Death In Romania

Romania, England.—Snow and bitter cold has swept over most of Europe, and numerous deaths were reported from several points.

In Roumania 11 men and women in a wagon were found frozen to death and their horses also perished on a country road. All the members of two families were reported to have frozen in a Bersarabian village and the Danube was covered with ice for several miles.

In northeastern France three persons died, and the snows interrupted shipping and train service.

The lowest temperature in France was five degrees above zero, but there was snow as far south as Bordeaux.

London had the first real snowfall of the winter and in some of England's rural districts the snow was a foot deep. All small craft in the channel took shelter from a strong easterly gale.

Won Oats Championship

Calgary, Alberta.—Peter Sebastian, of Wembley, Alberta, won the oats championship at the provincial scale fair. Sebastian's sample of Victory oats weighed 32½ pounds to the bushel. The grand championship, open to professional exhibitors as well as others, was won by Nels Linden, of Wetaskiwin.

Trade Vessel From Scotland

Montreal, Que.—Scotland is to send an official trade mission ship to Canada this spring, according to Graham Donaldson of the Anchor Donaldson Line, Glasgow, who arrived in Montreal to conclude arrangements at this end.

To Amend Juvenile Act

Bill Designed To Meet Representations Received From Seven Provinces

Ottawa, Ont.—A bill to amend the Juvenile Delinquents Act, in line with representations received from the Province of Manitoba, endorsed by six other provinces, was given first reading in the House of Commons.

Hon. Hugh Guthrie, Minister of Justice, explained that the amendment arose from the fact that the act as it now stands provides that it is an offence for anyone to contribute, promote, or procure a child to become a delinquent. It had been held by magistrates in certain courts, however, that while a man might do all in his power to procure a youth to become a delinquent, if that youth did not actually become a delinquent, the man was not punishable.

It was proposed to insert a clause providing that it shall not be a valid defence to a prosecution that, notwithstanding the conduct of the accused, the child did not in fact become a delinquent.

The amendment, Mr. Guthrie said, was endorsed by nearly all the Children's Aid Societies.

Students Against War

Demonstration At Tokyo Against Course Pursued At Shanghai

Tokyo, Japan.—The first public demonstration of any moment against Japan's course in Shanghai and Manchuria took place recently at the Imperial University.

Twenty-five students were arrested for participating in a protest meeting at which handbills, urging the people to "Stop this imperialistic war," were distributed.

Eight hundred students, assembled in front of the main lecture hall of the university, heard speeches by four of their colleagues and then attempted to parade through the streets in the vicinity carrying red banners. The police dispersed them and arrested the leaders.

Seed Oats Shipped

New On Way To Saskatchewan From Peace River Country

Calgary, Alberta.—Shipments of oats from the Peace River country are already under way to the relief commission in Saskatchewan, states A. E. Wilson, of Regina.

Mr. Wilson, manager of the Saskatchewan relief commission, said his province would probably acquire up to 2,000,000 bushels of seed oats and 1,000,000 bushels seed barley. No seed wheat would be needed, he said, as there were 5,500,000 bushels in Saskatchewan country elevators.

British Chiefs in Shanghai

On the shoulders of these men rests the responsibility for the protection of British and American citizens in war-torn Shanghai. This unusual photograph, made during a conference of the military chiefs, shows, left to right, Colonel R. S. Hooker, commander of the United States Marines in the international settlement; Major Price Williams, of the British defense forces; Major General Barrett, also of the British; and Brigadier-General Richard Fleming, in command of Britain's troops in the storm centre. The forces of both nations are being heavily reinforced to cope with any emergencies that may arise.

TARIFF BILL IS INTRODUCED IN BRITISH COMMONS

London, England.—The "trade bill" to establish a general 10 per cent. tariff on imports to Great Britain, was introduced in the House of Commons in "dummy" form and given its first reading, after the government had disposed of two Labor amendments which would have limited operation of duties to one year and placed all foodstuffs on the free list.

The bill was then introduced by Rt. Hon. Neville Chamberlain and given first reading. Exact contents were still unknown.

It was not known what products would be exempt from the effects of the bill, beyond that they would include wheat in grain, meat including bacon, raw wool and cotton, tea and coffee.

In the House of Lords Viscount Snowden, of Achnacraig, made his first speech as a peer, telling why he thought a general 10 per cent. tariff would be "disastrous to the economic and industrial life and to the prosperity of the country."

Viscount Snowden told the lords why he remained a member of the cabinet. He said that it temped his disagreement with the protectionist measures put forward by the government.

Referring scornfully to assertions that such an arrangement violated all precedent, he said that "if mankind always had remained the slave of precedent we would still be living in caves eating shellfish."

Gold Strike In New Area

Large Mining Group Has Taken Option In Manitoba

The Pas, Man.—While Manitoba's winter gold rush at Island Lake is proceeding with increasing vigor word of another gold strike reached here. The new strike is near mile 286 on the Hudson Bay Railway and a large mining group has optioned a group of claims there. Drills and equipment will be taken in within a few days to begin exploration work.

No details of the location of the claims, other than that Mile 286 would be the basis of operation, were divulged. Word of the development, however, confirmed rumors of a gold silver strike somewhere along the Hudson Bay Railway which have been current in the prospecting fraternity here for weeks.

Island Lake, directly east of here on the Manitoba-Ontario border, is now being put to the test of drilling and blasting operations by equipment and men taken in by aeroplane. Staking of additional claims continues.

Well Known Novelist Dead

Edgar Wallace Succumbed To Pneumonia After Brief Illness

Beverly Hills, Cal.—Edgar Wallace, 56, who became one of the world's most prolific and highest paid writers after starting life as a newsboy in the slums of London, England, died February 10, death being due to double pneumonia.

A million and a half of Edgar Wallace's books have been sold in this country, his publishers estimate. It took him about two weeks to write a book, and a week-end was usually enough for a play. In his spare time he conducted a racing column for a London newspaper.

To vary this activity, he tried politics, standing as a Liberal candidate for parliament in October 1931, but he was defeated. Wallace was born in 1875 and began writing 20 years later.

Wallace came to Hollywood from his home in England several months ago to write scenarios.

U.S. Emergency Measure

Washington, D.C.—United States congressional leaders agreed with President Hoover on a legislative drive for better times directed at freeing billions of sound securities for active credit use. The new emergency measure which will be pushed simultaneously and immediately in the Senate and House also proposes to make serviceable nearly one billion dollars of the treasury's gold supply not now needed for reserve.

SMOKED MEATS,
HOGS AND CATTLE
BOUGHT.
OPPOSITE ZILLIOX'S SHOP
STONY PLAIN.

Stony Plain and District

Mrs J Christie left on Saturday for a visit with her parents at Entwistle.

Mr F W Yeats is making good progress to a complete recovery, and was seen out for a short walk on Sunday afternoon.

The snowplow was out on the Jasper Highway Tuesday and cleared the road to the City.

In another column will be found a table, giving the official standing of the clubs in the local hockey league, which has been compiled by a well known sports statistician and expert mathematician, and guaranteed correct.

The ratepayers of the Inga Municipal District are billed to hold a meeting in Moose Hall next Saturday afternoon Feb. 20.

The Gehlert vs. Washburn case is said to be billed for a hearing today in an Edmonton court. This case is the outcome of a collision between two autos, last Fall, on Jasper Highway at the Beuerlein crossing.

There will, no doubt, be a large attendance of hockey fans at the Zucht rink tonight, when the Tigers, the tail-enders in the League, intend to defeat the Flyers, who are tied for first place with Onoway team.

Stony Plain Motors has installed a new two-sided illuminated "Ford" sign on the N.E. corner of its building.

The railroad siding to the Pool elevator has been re-balasted where the derailment occurred last week.

Contractor Anderson and his staff are making extensive alterations and improvements to the interior of Stony Plain Hardware showroom.

EGGS WANTED at the Royal Cafe.

The Valentine Tea and sale of home cooking held in the United Church Sat. last, Feb. 13, from 3 to 6 p.m. under the auspices of Ladies' Aid, was well patronised.

Do you know that the high bridge in glasses is the latest style. See M. Mecklenburg, who will be at the Royal Hotel, in Stony Plain, on Friday March 4.

United Church Notes.

This is the week of our Social evening at the Holborn hall. It is hoped that this event will go over strong on Friday evening.

Last Sunday we held our regular services at three points, with a fair attendance. The subject was from Mark 16:16: "He that believeth not is self condemned."

The "Tea" held by Ladies' Aid on Saturday last was quite successful. The ladies have purchased a set of folding tables which will prove a great asset in future.

Our annual. Board meeting of the entire field is to be held at Stony Plain Tuesday Mar. 1st at 3 p.m.

Church Services.

United Church service every Sunday Evg. at 7.30.

Sunday, Feb. 21, there will be Lutheran services at St. Matthew Schoolhouse at 7.30 p.m., by Rev. H. Kuring.

What Pool Elevators Want.

The problem now facing Alberta Pool elevators is to obtain the handling of a minimum of ten million bushels of grain between now and the end of July.

That problem is the responsibility of every Pool member in Alberta.

It is a matter of real importance to the Wheat Pool and Pool elevators and every grain grower who has a dollar invested in the Pool elevators.

A Substitute for Money.

An article in a Calgary paper states that the Town of Raymond, Alberta, will shortly issue \$10,000 in scrip to take the place of currency, in an effort to combat the financial crisis. The scrip will be redeemable at par January, 1933. Non-negotiable paper will be used as par in payment of tax arrears. Negotiable certificates will be issued to all employers of the town on a basis of 40 p.c. paper and 60 p.c. currency.

Heard on Main Street.

"Good morning, Ikey."
No answer.
"Good morning, Ikey! Vot the matter is?"
"Vell I can't talk this morning—it's so cold mine fingers might freeze!"

Use Your Cultivator.

In summer we cultivate the fields. In winter let us cultivate our minds.—It is in Athabasca Echo.

Traffic Out in Half.

The following suggestion has been made for reducing traffic on the highways—"To prohibit the operation of all cars not paid for—Castor Advance.

Railway Time Table

Going West—Every morning at 11.44.
Going East—Every afternoon at 3.44.

2 Meals a Day, Plenty Water, Helps Stomach.

"Since I drink plenty water, eat 2 good meals a day and take Adlerika now and then, I've had no trouble with my stomach."—C. DeForest.
Unlike other medicine, Adlerika acts on BOTH upper and lower bowel, removing poisonous waste which caused gas and other stomach trouble. Just ONE spoonful relieves gas, sour stomach and sick headache. Let Adlerika give your stomach and bowels a REAL cleansing and see how good you feel! J. F. CLARKE drug gist.

THE HOUSE OF DREAMS-COME-TRUE

BY MARGARET FIEDLER

Author Of
"The Splendid Folly," "The Hermit
Of Far West," "The House of
Hodder & Stoughton, Ltd., London."

CHAPTER XIII.—Continued

With an effort of will Jean tried to banish the recollection of Sir Adrian from her thoughts. The picture of his thin, leaden-hued face, with its cruel mouth and furtive, suspicious eyes, was out of harmony with this soft day of spring. She wished she had not let the thought of him intrude upon her pleasant reverie at all. His sinister figure seemed to cast a shadow over the sunlit river; a shadow which grew bigger and bigger, blurring the green of the trees and the sky's faint blue, until, silencing the comfortable little chirrup of the birds, busy with their spring housekeeping. At last, Jean could bear them any longer, and she took no notice when one enterprising young cock-bird hopped near enough to flick a feather that was sticking out invitingly from the corner of the cushion behind her head.

The next thing she was conscious of was of sitting up with great suddenness, under the impression that she had overheard and that the housemaid was calling to her very loudly to waken her.

Someone was calling—shouting lustily, in fact, and collecting her sleep-bemused faculties, she realised that instead of being securely moored against the bank her boat was rocking gently in mid-stream, and that the occupant of another boat, coming from the opposite direction, was doing her indignation best to attract her attention, since just at that point the river was too narrow for them to pass one another unless each pulled well in towards the bank.

Jean reached hastily for her sculls,

Too Much ACID

MANY people, two hours after eating, suffer indigestion—as they call it. It is indigestion, and correct it with an alkali. The best way, for quick, harmless and efficient relief, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralises many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know the right way. And you will never suffer from excess acid when you prove out this easy relief.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 50¢ a bottle—any drug store.

The ideal dentifrice for clean teeth and healthy gums is Phillips' Dental Magnesia tooth-paste.

W. N. U. 1929

only to find, to her intense astonishment, that they had vanished as completely as though they had never existed. She cast a rapid glance of dismay around her, scanning the surface of the water in her vicinity for any trace of them. But there was none. She was floating serenely down the middle of the stream, perfectly helpless to pull out of the way of the on-coming boat.

Meanwhile its occupant was calling out instructions—tempering his wrath with a friendly smile, as though he perceived that the fool whose craft blocked the way was of the feminine persuasion.

"Pull in a bit please. We can't pass here if you don't. . . Pull in!" he yelled rather more tartly as Jean's boat still remained in the middle of the river, drifting placidly towards him.

She flung up her hand. "I can't!" she shouted back. "I've lost my sculls!"

"Lost your sculls?" The man's tones sufficiently implied what he thought of the proceeding.

A couple of strokes, and, gripping the gunwale of her boat on a later occasion, he yanked it rather more tartly as Jean's boat still remained in the middle of the river, drifting placidly towards him.

Jean's eyes travelled swiftly from the squarish muscular-looking hand that gripped the boat's side to the face of the man. He was dressed in an ugly man as far as features were concerned, with a dogged-looking chin and a conquering beak of a nose that jutted out arrogantly from his forehead.

The sun glinted on a crop of reddish-brown hair, springing crisply from the scalp in a way that suggested immense vitality; Jean had an idea that it would give out tiny crackling sounds if it were brushed back. His eyebrows, frowning in defiance against the sun, were of the same hue as his hair and very thick; in later life they would probably develop into the bristling, pent-house variety. The eyes themselves, as Jean described them on a later occasion, were "too red to be brown"; an artist would have had to make extensive use of burnt sienna pigment in portraying them. Altogether, he was not a particularly attractive-looking individual—and just now the red-brown eyes were fixed on Jean in a rather uncompromising glare.

"How on earth did you lose your sculls?" he demanded—as indignantly as though she had done it on purpose, she commented indignantly.

Her lips twitched in the endeavour to suppress a smile.

"I haven't the least idea," she confessed. "I tied up under some trees further up and—and I suppose I must have fallen asleep. But still that doesn't explain how I came to be adrift like this."

"A woman's knot, I expect," he vouchsafed rather scornfully. "A woman never ties up properly. Probably you just looped the painter round any old thing and trusted to Providence that it would stay looped."

She gave vent to a low laugh. "I believe you've described the process quite accurately," she admitted. "But I've done the same thing before without any evil consequences. There's hardly any current here, you know. I don't believe—with conviction—that my loop could have unlooped itself. And anyway"—triumphantly—"the sculls couldn't have jumped out of the boat without assistance."

The man smiled, revealing strong white teeth. "No, I suppose not. I fancy"—the smile broadening—"some small boy must have spotted you asleep in the boat and, finding the opportunity too good to be resisted, removed your tackle and set you adrift."

There was a sympathetic twinkle in his eyes, and Jean, suddenly sensing the "little boy" in him which lurks in every grown-up man, flashed back a too good to be resisted, removed your tackle and set you adrift.

"I believe that's exactly what your urchin does," he yelled, the only thing to do now is for me to tie you back. Where do you want to go—up or down the river?"

"Up, please. I want to get to Staps."

She gave a quick glance at her sculls. "Surely you must be Miss Peterson," he nodded.

Yes. How did you guess?"

"My sister, Mrs. Craig, told me a Miss Peterson was staying at Staps. It wasn't difficult, after that, to put two and two together."

"Then you must be Geoffrey Burke!" returned Jean.

FAT—HEALTH'S GREATEST ENEMY!

Physicians declare excess fat is a condition which often weakens the whole system.

A needless strain is placed upon the heart, the function of body organs is interfered with, mental activity is impaired—shortness of breath, constipation, backache, and rheumatism are but a few of the ailments which are apt to arise in overweight men and women.

The proper, safe and certain way to banish fat is to do away with the cause—this is a half teaspoonful of Kruschen.

Kruschen is based on scientific principle—it is an ideal blend of a separate minerals which help glands, nerves, blood and body organs to function properly and maintain a splendid degree of health—it builds up energy and strength all the while you're training yourself down to a point of normal weight. You feel years younger—you look it. You can hasten the reducing action of Kruschen by cutting out fatty meats and pastries, and going light on butter, cream and potatoes.

FREE TRIAL OFFER

If you have never tried Kruschen—try it now at our expense. We have distributed a great many trial bottles of Kruschen. It may be easy for you to prove how it works. Ask your druggist for the new "GRAN" 75c package.

This consists of our regular 75c bottle together with a container for about a month's supply of our new "GRAN" 75c package. Open the trial bottle first, put it in your glass of water every morning. Kruschen does everything we claim it to do, the results will be in your hands. Take it back. Your druggist is authorized to return the unused portion of the unused portion. We have tried Kruschen first at our expense. It is manufactured by Dr. Griffith Hughes, Ltd., Manchester, Eng., 17, 17A, 17B, Importers: Macdonald Bros., Ltd., Toronto.

He nodded.

"That's right. So now that we know each other, will you come into my parlour?"—smiling. "If I'm going to take you back, there seems no reason why we shouldn't accomplish the journey together and tour your boat behind."

He held out his hand to steady her as she stepped lightly from one boat to the other, and soon they were gliding smoothly upstream, the empty craft trailing along in their wake.

For a while Burke sculled in silence, and Jean leaned back, idly watching the effortless, rhythmic swing of his body as he bent to his oars. His shirt was open at the throat, revealing the strong, broad-based neck, and she noticed in a detached fashion that small, fair hairs covered his bare arms with a golden down, even as she noticed to the backs of the brown, muscular hands.

She found herself femininely conscious that the most dominant quality about the man was his sheer virility. Nor was it just a matter of appearance. It lay in something more fundamental than merely external. She had known men of great physical strength to be not infrequently gifted with an almost feminine gentleness of nature, yet she was sure this latter element played but a small part in the make-up of Geoffrey Burke.

The absolute ease with which he

When TEETHING makes HIM FUSSY

One of the most important things you can do to make a teething baby comfortable is to see that little bowels do their work of carrying off waste matter promptly and regularly. For this purpose there is better than Castoria, a pure vegetable preparation specially made for babies and children. When your baby is fretful with teething or a food upset, give a cleansing dose of Castoria. Be sure you get genuine Castoria with the name

Castoria
CHILDREN'S CASTORIA

sent the boat shearing through the water seemed to her in some way typical of a converted sense of matter that was unquestionable, even a little overpowering.

She felt certain that he was, above and before all other things, primalval, forceful and conquering, of the type who in a different age would have cheerfully bled his way through any and every obstacle that stood between him and the woman he had chosen as his mate—and, afterwards, if necessary, bludgeoned the lady herself into submission.

"Here's where you tied up, then?" Burke's voice broke suddenly across her thoughts, and she looked around, recognizing the place where she had moored her boat earlier in the afternoon.

"How did you divine that?" she asked.

"It didn't require much divination! There are your sculls"—pointing—"stuck up against the trunk of a tree—and looking as though they might topple over at any moment. I fancy"

—with a smile—"that my 'small boy' theory was correct. I believe I could even put a name to that particular link of Satan responsible."

"You moored your boat on the Willow Ferry side of the stream, and our lodge-keeper's kids are a troop of young demons. They want a thorough good thrashing, and I'll see that they get it before they are much older."

He pulled in to the shore and rescuing the sculls from their precarious position, restored them to the empty boat.

"The same," he added, as, a few minutes later, he helped Jean out on to the little wooden landing place at Staps. "I think I'm rather grateful to the small boy—whatever he may be!"

(To Be Continued.)

Little Helps For This Week

"Look unto Me, and be ye saved; for I am God, and there is none else." Isaiah xli, 22.

Think, thou, O mariner, on the death-ship that thou art in.

Of voyaging toward a beacon that shall save

Both thee and me, nor any death destroy.

—Anne Fields.

The true home for us lies beyond those waters, and, oh! the ruder needs a firm hand, and the voyager a stout heart. So, then, whatever our voyage may hitherto have been, when we have gazed from the stern on the shores that fade behind us, and afterwards, as we turn away again to look on the misty uncertainties of all that may await us in our future course, let us pray that touching prayer of Breton mariners, "Save us, O God! This ocean is so large, and our little boat so small."—Frederic W. Farrar.

Children suffering from worms soon show the symptoms, and any mother can detect the presence of these parasites by the writhings and fretting of the child. Until expelled and the system cleared of them, the child cannot really be better than a Worm Powder is prompt and efficient, not only for the eradication of worms, but also as a tonic up for children that are run down in consequence.

Graded Beef Consumption

Throughout Canada there is a gradual increase in the consumption of graded and branded beef, owing to its superior qualities. Professor R. S. Hamer, Dominion Livestock Breeding Department of Agriculture, stated recently in an address at the annual meeting of the Ontario Cattle Breeders' Association. Seventeen million pounds of branded meat were sold last year, he said.

All mothers can put away anxiety regarding their suffering children when they have Mother Graver's Worm Expeller to give relief. Its effects are sure and lasting.

China Has Zig-Zag Bridge

Meandering across a lake in Shanghai, China, a zig-zag bridge stretching from a busy part of the city to a tea house on the opposite shore, has just been opened. It has made a great hit for it has a half-dozen angles, and the Chinese have found the corners great havens in which to pause for conversation.

The famous Hanging Gardens of Babylon were a series of terraces planted with trees and vines and flowers, so as to simulate a mountain side in a tropical bloom.

Miss Ann Adam's Recipe for Bran Muffins

1 cup bran
1/4 cup flour
1/2 teaspoon salt
2 teaspoons Molasses
Baking Powder

1 cup sugar
1 cup milk
1 cup melted shortening
Mix the bran with the sifted dry ingredients. Moisten a well in the centre and pour in the milk and well-beaten egg. With the fewest possible strokes of a spoon, blend these ingredients and stir vigorously. Roll in a large sheet of waxed paper and bake in a hot oven, 400° F. to 500° F. for 15 to 20 minutes. A few chopped dates, raisins or currants may be added. lightly coated with none of the molasses flour, may be added.

Miss Ann Adam bakes her famous Muffins

with Magic Baking Powder

"When selecting ingredients for my recipes," says Miss Ann Adam, Baker and cookery author of the Canadian Home Journal, "I consider

three points—economy, health value and successful performance."

"Magic Baking Powder meets them all. I use and approve Magic, because I know it is pure, and free from harmful ingredients, and because experience has taught me what I can count upon successful results with Magic every time."

Magic Baking Powder is used exclusively by the majority of cookery experts, dietitians, and housewives throughout Canada. In fact, Magic outells all other baking powders combined!

FREE COOK BOOK—When you bake at home, the new Magic Cook Book will give you dozens of recipes for delicious baked foods. Write to Standard Brands Ltd., Fraser Ave. and Liberty St., Toronto, Ont.

"CONTAINS NO ALUM." This statement is on every tin of your guarantee that Magic Baking Powder is free from alum or any harmful ingredient.

CARTER'S PINK PILLS

Hockey News.

The tail-enders in the WOW Hockey League, Tigers and Wabamun, met on the Zucht rink the evening of the 11th for their schedule game. The localities were all braced up to put this game in the bag for themselves, having their best players on ice, and are said to have had two reserve goalies present, in case Louis the 14th got heart failure. Right as the game started and before the home players woke up, the Wabbys popped the puck into the Tigers' conceptible for a score, and popped in another one before the end of the first period; in the meantime the Tigers succeeded in scoring one, making it 2-1 against the Tigers. The balance of the game was rather amusing, made so by the frantic efforts of the Tigers to even up the score; but all to no avail, as the final figures were: Wabs 4, Tigs 3. Neil Sutherland refereed.

Thursday was a bad night for Stony hockeyists, as be-

Why go elsewhere, when can get the very best, latest styles in glasses for only \$10? See M Mecklenburg at Royal Hotel, Stony Plain, Fri. Mar. 4. Charges moderate.

WHY SUFFER FROM HEADACHES,

Pain in and around the Eyes?
The right glasses fitted to your eyes will surely relieve you and give you comfort.

Glasses furnished Free.
Ten dollars examination fee.
That is far cheaper than paying \$3 to \$10 for an examination and then leaving at \$12 to \$15; but if you cannot see the logic of this, you need not have glasses.

M. M. Mecklenburg,

41 Years' Experience,
28 years in Western Canada.
10229 101st St., Edmonton.
At Stony Plain, 3 to 8 p.m., Friday
March 4, 1922.

Electing a Councillor.

At the last Municipal elections in Stony Plain three Councillors were elected, from the five candidates' names on the ballot. Since the election, the resignation of one of last year's Councillors has been handed in, and been accepted. To avoid the necessity of another election, it is probable it will be arranged whereby the candidate who received the fourth largest number of votes at the last Municipal election, Mr Henry Oppertshausen Jr., will be elected officially to the vacancy.

Get Your License Plate.

Following the warning given last week by Mr Shute, Edmonton's chief of police, regarding the necessity of having a new 1932 license plate on your car while using the City streets, the officers in charge of each Detachment of the Alberta Police have been given instructions to see that the law regarding the 1932 license plates is enforced. Car drivers using the old plates are liable to be prosecuted.

sides the 4-3 defeat at Stony for the home team, a like 4-3 dose was handed the Flyers who had traveled up to Onoway. As usual, when a defeat for the Flyers was apparent, the Mourners' Squad did a lot of weepin' and wailin', led by Heinrich the Prince of Wails.

Eddie Mayer, Stony's premier goalie, excelled himself at the game with the Grove team last week. The Spruce Groves brought up the best they had—a team which included Herman Loeblich and Walter Brox. Stony's Junior team held up pretty well, even against these oversize opponents, and ended the game with the score: Stony Juniors 3, Grover All Stars 0. This makes several shutout games young Mr Mayer has to his credit this season.

The Tigers played Wabamun on the latter's rink Sunday afternoon. Tigers team had been strengthened by the appointment of a new and efficient goalkeeper, J Ulmer; a new and efficient defence man, H Oatway (formerly with the Flyers. The Referee was a Stony Plain man, W Rosnau. During the play, it was noted that Wabamun's manager did not stand at the rinkside and shout comments and instructions to his players, so his team won, 4 goals to Tigers' 3.

Stony was more fortunate with its other team on Sunday afternoon, as team No. 3 with young Mr O'Wudel in goal, beat a team from Onoway 3 goals to 1. The Onoway girls team did not come.

As several of the hockey players had other urgent engagements that evening, the scheduled game between the Flyers and Tigers on Zucht rink for Tuesday had to be postponed. The Flyers go to Wabamun Sunday next.

In the Midget League—
Feb. 12, Eskimos 6, Rosebuds 2.
Feb. 15, Indians 7, Rosebuds 0.
Eskimos 1 and Beavers 0.

Holborn Happenings.

Mr Roy Meisner is holding a clearance sale of his stock and implements at his farm on Thurs. Feb. 25.

There was a good sized crowd in attendance at the Hall on Tues. Evg., the occasion being the card party given by the U. F. W. A. A dance followed.

Tomorrow, Friday Evg., the 19th, a concert and social will be held at Holborn Hall. This is in aid of the United church.

With the Curlers.
